

Building Trust for AI Voice

Trust infrastructure for the age of voice AI.

As Voice AI Scales, Trust Becomes Infrastructure.

912 Communication Inc. protects voice data before it reaches AI systems. We safeguard personal and sensitive information while reducing the risks of speaker identification and AI misuse. **Voice Trust Infrastructure for the AI era.**

MUTARI

A Real-Time Voice Trust Platform for Voice AI

MUTARI protects personal and sensitive information across voice and video files and enterprise live voice streams. It also reduces the risks of speaker identification and AI misuse.

PRIVACY PROTECTION

Sensitive Data Protection

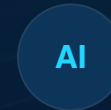

Detects sensitive speech and applies protection only where needed.

SPEAKER DE-IDENTIFICATION

Speaker De-identification

Reduces speaker identifiability while preserving audio utility.

AI MISUSE DEFENSE

Cloning & Training Defense

Helps prevent voice cloning, synthesis, and unauthorized AI training.

Protect Voice Before Exposure

VOICE & VIDEO FILES

LIVE VOICE

API & SDK

CLOUD & ON-PREMISE

Technology Built to Deploy. Infrastructure Built to Operate.

REAL-TIME

Protection at the Source

Applies protection before voice is stored, transcribed, or analyzed by AI.

MULTI-LAYER

Multi-Layer Voice Trust

Addresses sensitive data, speaker identity, voice cloning, and AI misuse risks.

ENTERPRISE-READY

Flexible Integration & Deployment

Supports APIs, SDKs, cloud or on-premises, plus enterprise policy, access, and audit controls.

TRUSTED FOUNDATION

COMMERCIAL

Commercial service
& paying customers

VALIDATION

Enterprise & institutional
pilots and PoCs

INTELLECTUAL PROPERTY

Core voice AI technology
& patent portfolio

CERTIFICATION

ISO 27001 · ISO 9001
· ISO 14001

Setting the Trust Standard for Voice AI—Together.

We partner with organizations where voice and sensitive data matter
— through MUTARI deployment, PoCs, platform integration, and strategic collaboration.
